My Dear Friends,

Although the keeper has changed, the mission to serve those in crisis and to prevent homelessness and hunger continues. Many thanks to Miriam Mahan for her years of dedicated service to the people of St. Charles, Lincoln, and Warren counties.

Miriam is directing her passion for the well-being of our communities by continuing her advocacy through our Social Justice Committee.

As the new Executive Director of Sts. Joachim and Ann Care Service, I want to take this opportunity to thank everyone for the warm welcome you've extended during the passing of the baton. As our mission continues, the efforts of our Board of Directors, our Staff and our Volunteers never cease to amaze me. The Care Service remains in grateful thanksgiving to Archbishop Robert Carlson and Reverend John Brockland, JCL for their support of the mission that allows the Care Service to serve the growing needs of the community.

Exciting happenings are in progress to advance the mission of the Care Service in the future, including the 2016 launching of two new initiatives. Street Outreach is a program designed to find and assist those who are living unsheltered in our community and Client Choice is a new format in our Food Pantry to better meet the nutritional needs of our clients. Read on to find out more about these initiatives. Many thanks to SSM Health Care for their assistance in launching the Street Outreach program and to Missouri Foundation for Health and Missouri Housing Development Corporation for assisting with program funding. We give thanks also to everyone who helped in the transition of the Food Pantry. Your impact has been tremendous!

The Care Service hopes its plans to expand the Food Pantry by 4,000 square feet will soon become a reality. Through the kindness of our community, donations

have greatly increased. To efficiently manage these donations, it is necessary to add more space for sorting and rotational storage to avoid the everyday occurrence of overflow into the hallway. Your help and generosity in supporting this effort will help us serve the pantry clients with greater love and efficiency.

Although we are stretched beyond our resources, we are committed to providing the highest level of service to the community in Housing, Children & Family Development, Food Pantry, Adopt-A-Family and Social Service Advocacy.

Your continued support and generosity to the Care Service is extremely important and greatly appreciated. Please pray for those we serve and remember us in your annual giving and estate planning. Our Strategic Plan is wholeheartedly to serve those in crisis and to prevent homelessness and hunger. As Matthew 26:11 proclaims "... you always have the poor with you."

May the blessings of peace rest on you! In thanksgiving for all our existing supporters and those we have not yet come to know.

Jack Lipin Executive Director

Our Integrated Services

The Care Service addresses the comprehensive and complex needs of families and individuals facing crisis, such as homelessness, hunger, mental and physical health disorders, lack of basic necessities, untimely death, and multiple issues that confront families who are dealing with poverty. Utilizing integrated services, we work with our clients to achieve stabilization and systemic change in their lives, which also impacts the overall health and preservation of our local communities. Our services include:

Housing Assistance-financial assistance and case management for individuals and families in crisis to remain or become housed.

Rent/mortgage and utility assistance Temporary shelter/permanent housing Home repairs for homeowners Case management Referrals and resources Goal planning

Children and Family Development-comprehensive case management, tools and services for families with children, 18 and under, who are homeless or in crisis, in order to become self-sufficient and remain housed.

Housing assistance

Full assessment of needs — physical, mental, emotional Comprehensive case management

Goal planning with the family

Advocacy on family's behalf for support services, including special needs and disabilities

School supplies, coats, and shoes for children, when

Assistance and referrals for clothing, household goods, appliances and beds

Workforce Development

One-on-one job exploration/counseling Resume writing assistance Online job application assistance Job leads and referrals Employment preparation

Did You Know?

Our CFD program alone served 747 children in 201w6. All our programs combined served 2,873 children.

Food Pantry-weekly assistance to families/ individuals.Our Client-Choice format helps meet nutritional needs and upholds dignity through freedom of choice.

Weekly food sustenance
Personal hygiene items as available
Household cleaning supplies as available
School supplies at the start of the school year
Easter baskets for children under 12
No Hunger Holiday (Thanksgiving meal)
Other items as available

Adopt-A-Family

Christmas program providing meals, gifts, and basic needs for individuals and families. Through direct community involvement, over 500 families are served each year.

Street Outreach-tangible basic needs, case management, housing options, and access to health care for literally homeless individuals.

Individual assessments
Information and referrals
Crisis intervention
Prevention and education activities
Emergency shelter resources
Follow up support
Survival aid (food, clothes, hygiene items)

Disaster Recovery

We are a first responder, frequently called to assist in the immediate and long-term coordination of community-wide disaster efforts, and we are a member of Community Organizations Active in Disaster (COAD).

Housing Assistance Program

SURVEY HIGHLIGHTS

The Care Service conducted follow-up surveys with its clients approximately 3 months after they have received financial housing assistance. Calls were made to 595 households that received housing-related financial services during this time period. Approximately 60% of clients who received this assistance were at or below the 25% area median income level. We were able to reach and survey 49%, or 289 households, of the total 595. This report represents clients who were served from April 1, 2015, to March 31, 2016, covering 12 months of service.

Outcomes

- 83% of clients surveyed were still residing at the address where assistance was last received (this is a considerable increase from 77% last year)
- 94% of total clients surveyed stated they were currently living in a safe, secure, and stable home environment (consistent with last year's result).
- 34% indicated they were able to make their utility payments since assistance was last provided. This was a considerable decrease from 2015; however, we feel this decrease was mostly a result of the change made to the survey response options that the client was asked to choose from giving a more accurate picture of the client's situation.
- 64% of clients surveyed were able to make their rent/mortgage payments since assistance was last provided. This was a considerable decrease from 2015; however, we feel this decrease was mostly a result of the change made to the survey response options that the client was asked to choose from giving a more accurate picture of the client's situation.
- **16%** of clients surveyed realized an increase in income due to a change in employment.
- Of those clients surveyed who have schoolaged children, 99% of those children were enrolled in school.

Impact & Satisfaction

- 90% of those surveyed stated that the housing assistance provided to them by the Care Service had a great impact on their household.
- 92% were very satisfied or satisfied with the quality of care they received from the Care Service case management staff.

The Care Service staff utilize the results of this survey each year to identify ways to improve service delivery and make improvements to our quality of care. We continuously work to improve our survey tools and the methodology of our data collection.

Children and Family Development

2016 CFD GOALS and OUTCOMES

In 2016, the Child and Family Development Proworked with 747 children from 408 families.

Goal: 99% of the children served will be enschool within 7 days of entering the program remaining 1% within 14 days.

2016 Result: 100% of the children senrolled in school within 7 days.

Goal: 100% of the children server improvement in at least three basic need

2016 Result: 100% showed improve 3 basic need categories.

Goal: 85% of the children served will shin one area of the physical and emot assessment within 12 months.

2016 Result: 95% showed imprarea of the physical and emoti assessment within 12 months.

Goal: 85% of the children served wi social activities and show improvemer connections measurement.

2016 Result: 88% of children se improvement in the social measurement.

Goal: 75% of children served will be residing within 6 months.

2016 Result: 88% were placed in stable within six months.

Did You Know?

The Care Service transitioned into a Client Choice Pantry in 2016.

The new pantry format allows clients to shop the pantry like a regular grocery store and choose their own items.

The pantry serves more than 125 families each week.

Workforce Development Survey

The Care Service conducts an annual Workforce Development survey to give its clients the opportunity to share their opinion about the program, and to provide the Care Service with information to make improvements to service delivery.

A total of 49 clients were served by the Care Service Workforce Development program in 2016, and 23 (47%) responded to the phone survey. These clients received one-on-one assistance 3 months prior to being contacted for the survey.

Statistics of those surveyed:

- 23% were married
- 32% had school-age children
- 4% received unemployment benefits
- 4% received Social Security benefits
- 4% were receiving (or had received) services from the Missouri Career Center
- 32% had prior convictions, and 9% had a previous felony charge (these results are both lower than in 2015)
- 9% had received services from other employment agencies

Did You Know?

The number of homeless seniors (60 and over) in our community is rising at an alarming rate. The Care Service assisted 224 seniors in crisis in 2016.

Satisfaction

70% indicated they would recommend the Care Service; 70% would use its employment services again, if necessary.

65% stated they would contact the Care Service, if necessary, for other services and assistance such as food pantry, housing assistance, and applications for TANE.

61% agreed/strongly agreed that Care Service job leads improved their ability to search for jobs.

61% agreed/strongly agreed that Care Service assistance improved their ability to complete job applications.

61% agreed/strongly agreed that Care Service assistance improved their chances of getting a job.

91% agreed/strongly agreed that they were satisfied with the quality of service they received from the Care Service.

70% of the respondents had found employment. Of this percentage, 39% had found full-time employment. Job titles included: Karate Teacher, Document Main Specialist, Sales Representative, Home Healthcare Aide, Archives Aide, Fryer, Bus Monitor, Driver, Customer Service, and Administrative Assistant.

Of note: Only 5 responses were provided for "When asked to compare the Care Service to other employment agencies, 60% of those who responded to this question stated that the Care Service was better or the best."

Julie

She knew Thomas could not be around drugs or those who used them, even if it was his own father. Kicking Thomas' father out of their home accomplished that, but it also meant losing their only source of income.

At 19 years old, Julie was about to become homeless and came to the Care Service for help. Like many of our clients, Julie lacked a support network. Her parents would not take

To protect privacy, clients' names have been changed. Those pictured here are not the clients in the story.

them into their home. Her friends wouldn't help – they wanted to play and party. She had no resources or support for providing a safe life for her child.

Julie's apartment lease was about to expire. If she were to be evicted before fulfilling her obligation, she would experience a roadblock to finding housing in the future. She had a job lined up, but lacked a driver's license and transportation for work. After paying for rides and childcare, Julie had about \$20 a week left to support her child with diapers, wipes, food, and clothing. In addition, Julie had a poor self-image and described herself negatively.

We qualified Julie for long-term rental assistance and provided resources for clothing, food and baby supplies. Our support allowed her to reserve income for utilities and rent to fulfill her lease. Together with her social worker, Julie learned to set short-term goals that were attainable and included a goal designed to change her self-image. It was important

Julie lacked a support network. Her parents did not want her and her child to live with them. Her friends wouldn't help. She had no other resources or support for providing a safe life for her child.

that Julie understood that small goals can have a big impact on long-term goals.

A breakthrough came when Julie shared "I feel like a person, like I actually have meaning" and "I feel accomplished, who would have known goals are achievable?" This change in attitude made all the difference.

By the time her lease ended, Julie had passed a driving

test and was working toward obtaining a vehicle. She remains on several waiting lists for income-based housing and her mother agreed to let them live with her so Julie can save money for rent deposit when a home becomes available.

The change in Julie is immediately apparent. With support from the Care Service, she now has the resources to build a better life, an understanding of how goals impact her future, and self-confidence to know she can succeed.

Street Outreach

Designed to find the literally homeless in the community, our Street Outreach program pairs a social worker with a medic to put feet on the street in St. Charles, Lincoln and Warren counties. The program provides those who are living unsheltered with case management and housing services, an assessment of medical needs and medical attention that can be administered on the move and a chance for stability.

The catalyst for the program came from a need to assist single men who are homeless. Homeless men are all too often overlooked and funding to assist them is scarce. The Care

Service applied for HUD funds through the Missouri Housing Development Commission (MHDC) and was selected to receive funding, which has been utilized for piloting the new program. The program will focus on providing tangible basic needs, case management, housing options, and access to health care for literally homeless individuals in St. Charles, Lincoln and Warren counties, particularly single men.

A street outreach case manager seeks out those who are unsheltered to identify their needs, such as housing, food, clothing, and medical attention. SSM Health St Joseph Hospital – St Charles agreed to partner with Sts. Joachim and Ann Care Service conjunction with program. A St. Joseph Hospital emergency medical technician, nurse or other health care professional accompanies our case managers on outreach visits. St. Joseph Hospital provides medical and psychiatric support while Care Service staff provides the case management and housing for each person assisted.

that an end result of the outreach will be a reduction in the number of those living on the streets and an ability to address the issues that have placed them there. Although other organizations operate street outreach programs for specific demographics, like youth and veterans, there are no other efforts of this kind in our area that serves all demographics, including men, who typically fall last on every crisis prevention priority list.

Our Street Outreach program will provide for greater advocacy and more in-depth service to ALL those in need, increasing the chance for recovery and self-reliance. This outreach has been needed for some time in our local area, but until now has never been achieved.

Client Choice Food Pantry

In 2016, the Care Service implemented a new feature in our Food Pantry, Client Choice. This new format allows our clients to make their own choices from the variety of foods donated to the Pantry, instead of receiving groceries we select for them in advance.

We are excited to be able to offer this new format. Not only does it help meet the

nutritional needs in each household we serve, it also eliminates waste and upholds the dignity of our clients. It feels more like shopping for food at the store. Clients can now take only the foods they know they will use, which saves money and enables the Care Service to provide the foods that best fit our clients' needs.

To further accommodate our clients' needs and provide greater access to food, Pantry hours were expanded from one day a week to three days a week. These are major changes that have improved the lives of those we serve. We thank all of those who have helped us with this transition through volunteering time and service as well as those who have contributed food and monetary donations. The impact you have made has been tremendous!

The Care Service hopes its plans to expand the Food Pantry by 4,000 square feet will soon become a reality as well. Through the kindness of our community, food and personal care donations have greatly increased. In order to efficiently manage these donations, additional

space is necessary for sorting and rotational storage. In 2016, a campaign to fund this need began and donations were raised for more than one-half of the

Celebrating 35 Years

As we celebrate 35 years of service to the community, we dedicate this timeline in honor of our former Executive Director and Co-Founder, Miriam Mahan and to Co-Founders, Sandy Stetson, Clara Schappe, Shirley Petroskey, and Jane Muich

in addition to the Pastor who brought them all together in 1981, Father Robert

Liebrecht. Your vision and leadership have changed lives and the landscape of our community.

Those of us who work, volunteer and support the Care Service are honored to follow in your footsteps as we dedicate a part of our lives to continuing your legacy of serving those who are most in need.

Holly and her three daughters were homeless and found themselves living in her parent's basement in the aftermath of a difficult divorce. This living arrangement had a negative impact on everyone.

When Holly came to the Care Service, her girls were struggling at school and their grades had begun to fall. Holly was overwhelmed and unable to see a way to a better life for her family.

After our assessment, Holly and her girls were selected to occupy a Care Service transitional home while her family worked toward long-term stability. We provided intensive case management to help Holly set and meet goals that would make a difference in their lives.

After almost a year, Holly and her girls became stable and have made significant progress toward self-sufficiency. The girls are succeeding in school, even making honor roll. They are involved in school activities and making friends. Although

Her parents did not want her and her children to live with them.

Holly and her three daughters were homeless and found themselves living in her parent's basement in the aftermath of a difficult divorce.

they do not have money to enjoy many of the same experiences as their friends, Holly works hard to find free activities to explore as a family, like the library and area parks.

Holly has found peace in her new home and has made amends with her parents. She works full-time and loves her job, expressing to her social worker how rewarding it is. She is thankful that her hours allow her to spend weekends with her girls. With the Care Service, Holly learned to make a budget and has adhered to it. She has encountered a few setbacks, for example, when her van broke down. Her new

To protect privacy, client's names have been changed.
Those pictured here are not the clients in the story.
budgeting skills helped her save up to
purchase a replacement vehicle.

Holly reached many of the goals she set for herself and began to look for permanent housing. On the advice of her Social Worker, she applied for a Habitat home and other income-based housing options.

The Care Service transitional home served its purpose – to provide a place for Holly and her family to stabilize their lives, make and reach goals, and transform from a family in crisis to a family ready to begin a better future. The Care Service provided the resources and support she needed and Holly used them to create a successful transition for her family.

building cost. Your help and generosity in supporting this effort will help us serve Pantry clients with greater love and efficiency.

One of our future goals for this program is to provide a case manager to follow up with client progress. A case manager will be able to provide additional resources to make a difference in the lives of our clients, such as with budgeting concerns and nutrition. Additionally, we are working toward tracking measureable outcomes in order to indicate the level of success our clients achieve.

Timeline

1981 Father Robert Leibrecht assigned to establish Sts. Joachim and Ann Church.

Miriam Mahan appointed to ministry for advancing human rights; food and services provided to the poor from Miriam's kitchen and Clara Schappe's garage.

Care Service Founders: Father Leibrecht and five volunteers - Miriam, Clara, Shirley Petrosky, Jane Muich and Sandy Stetson.

First Care Service Adopt-A-Family event serves 25 families from St. Bridget of Erin in St. Louis.

> **1984** Care Services agrees to take 86 open cases from Willott Baptist Church. Began serving recipients from new Rectory garage. Moved out of Clara's garage and Miriam's kitchen.

1991 Dedicated Care Service building on Parish campus, built and donated by the residents of St. Charles County, including Pantry warehouse and two small offices. Miriam and Tom Cronin take lead roles in establishing the National Homeless Coalition, the Low Income Housing Coalition, the MASW Housing Task Force, the St. Louis Food Pantry Association, and the Walk for Hunger. 1992 Pelican Island under water. Care Service begins preparations for what was to come with future flooding

1995 Through the St. Charles County Disaster process and collaboration with 14 county agencies led by Crider, a land buyout allowed for 1,400 households to be relocated out of the flood plain. Homes were repaired, destroyed or elevated. Families found new homes within St. Charles, Lincoln and Warren counties, never again to worry about high water. In addition, the town of Winfield in Lincoln County successfully relocated to high ground, directed by the Boone Economic Regional Center in Warrenton.

2001 Relocated the residents of Trio Mobile Home Community. Care Service approved by HUD to build 19 units for the poorest of the poor seniors in our community, St. Clare of Assisi/ Warrenton Senior Village in Warrenton.

2008 Silex under water. Care Service relocates 72 families to high ground, under direction of Boonslick Regional Planning

Commission.

2016 Implementation of Street Outreach Program: Food Pantry - extended hours to meet client needs, client choice format; Social Justice education, Miriam Mahan retires

2011 Care Service becomes nationally accredited by the Council on Accreditation (COA).

— 1982 —— 1984 —— 1986 —

-1991

1993 Levee breaks up and down

Missouri and Mississippi Rivers in St. Charles County and Winfield levee in Lincoln County. Care Service begins to mobilize volunteers, churches and

organizations under the direction of American Red Cross. Care Service establishes Project Recovery and case manages 4,300 families affected by massive disaster, in partnership with 14 agencies, the City of St. Charles, Chambers

of Commerce, and Crider Health Services.

2003 Care Service is incorporated as a 501(c)3 nonprofit organization.

2005 Hurricane Katrina. Care Service contracted by UMCOR to case manage 2,200 households. Families relocated

to 20 counties within the State of Missouri; most returned home or moved to Houston, Texas. Dedication of St. Clare of Assisi/Warrenton Senior

Village.

2004 Care Service hires

its first employee.

2009 Care Service purchases
